

## Home Office

Mr & Mrs Jones, Shepperton

CASE STUDY 43

Creed Miles was tasked with furnishing a home office, complementing the decor of the rest of the house whilst keeping to a reasonable budget.

### THE BRIEF

Making the best use of a relatively small space, Creed Miles had to fit in the maximum size work surface possible, as well as accommodating the various storage requirements.

### THE SOLUTION

A natural walnut melamine was installed to accompany the existing wood effect flooring and a corner workstation with conference extension, provided the large work surface required. The storage selected provided ample space for all the client's files and included a wardrobe compartment and display section with glass doors.

A high backed chair from the 'Solar Range' was selected for its comfort, adjustability and price.

The project was completed within the required budget and time frame, to the customer's complete satisfaction.
